

# Medical Work; Within “The Future of Work in the New Normal”

---

BY DR ROOBINI KRISHNAN

MEDICAL DOCTOR, COVID-19 FRONTLINER

# Outline

---

Day to day life

Challenges

Support

Post-pandemic repercussions

# What's it like a day in my life?

---

Pre vs during COVID-19

Working in full PPE

Frequent sanitisation

Attending acute problems

Recording statistics

Keeping up with changes

# What are the biggest challenges?

---

Doctor-patient barrier

Progression of non-COVID illnesses

Limited resources

Manpower

Lack of public health education

Work-life balance

# How is the state supporting the crisis?

---

Psychological first-aid

Continuous medical education

Providing resources

Reallocation and distribution of healthcare workers

Primary education eg mySejahtera app

# What happens after this?

---

Greater awareness regarding infectious diseases

Enhanced global vigilance

Resilient healthcare workers

Instil passion amongst younger generations

# The trolley problem

Many thanks for your attention!
